For the Attention of Glenn

2<sup>nd</sup> July 2009

Dear Glenn

**Re: Demolition of Building located at Fitzgerald's Way**

We would like to thank you and your team very much for the superb job done in demolishing the shop and warehouse at the above address.

Having seen the professional way in which you demolished the building and disposed of the asbestos in the roof and all the other hazardous materials, we can only express our thanks in making this job look so easy.

Our thanks must go to all the boys who worked on the site under your supervision and for all their help and friendliness towards us both. On our return from holiday at the end of June after the site had been completely cleared we were delighted that the site looked so clean, tidy and securely fenced off.

Thanks also must go to Adele, Sam and the team at the office for all their help and for keeping us informed of the schedule of demolition at the site and for arranging for all the correct Health and Safety procedures being followed, including the site visits made by the inspector and Adele.

As you know demolishing the building which we had traded from for 35 years was an extremely hard and sentimental decision to make, but you and Adele were very understanding and kind during the whole process to us both and we would have no hesitation in recommending your company to other friends and business associates in the future.

Our very best wishes for the future and once again thank you for everything.

Yours sincerely  
For Fitzgerald's Furniture Holdings Ltd

Tom and Bev Fitzgerald
