

Reference

I have recently completed a side extension to my house and a big word of thanks must go to the whole team, from Sam in the office to Glen and the boys in the field, very professional, always on time and a job that would have taken my builders at least two weeks done by Glen and the team in 3 days.

I would definitely recommend Glen and his team if you want some demolition done (big or small), getting some muck removed or just plain and simple skip hire.

Thanks guys and good luck
